

***NAMI Pensacola and The Pavilion at West Florida Hospital
invite you to attend a presentation on:***

Perinatal Mental Health

About 80% of women will experience “baby blues,” which should go away after a week or two when hormones stabilize, according to Eileen Wolfe. But one in seven women, or 14%, will deal with postpartum mental health problems such as postpartum depression or anxiety, even bipolar illness. These issues, and therapy, will be discussed in this presentation.

Eileen Wolfe of Pensacola Therapy Services, LMHC, certified in Maternal Mental Health

**Thursday, October 27, 2016
6:00-7:30 pm**

**The Pavilion at West Florida Hospital,
